

PBN is extremely proud of the unique plaque that is presented to our Awardees.

The plaque features a terra cotta design that renowned architect Louis Sullivan used on the Guaranty Building. The terra cotta was re-created for us by Boston Valley Terra Cotta, the firm that originally produced the terra cotta for the Guaranty Building and for its subsequent renovations. The plaque's wooden base was created by Tony Martin Awards Inc.

PBN feels that it is very special that our award reflects the history embodied in one of Buffalo's – and the nation's – most important buildings.
